Dryer Sheets

Soft Fabric

Fragrance Free Dryer Sheets ☆

Nothing's more inherently good than soft, fresh bed sheets. Except maybe these innovative dryer sheets. They're veggie-based. They're biodegradable. And they even break in two in the dryer for fair and just distribution of soft, static-free goodness to every last, humble pillowcase.

Benefits

- Softens clothes and helps prevent wrinkles.
- No fragrance.
- Effectively reduces static cling.
- Uses vegetable-derived softening agents.
- Safe with all washable fabrics.
- Automatically tears in half during the drying cycle to distribute softness throughout the load.

Did you know?

Most dryer sheets are made from synthetic fabric and/or polyurathane foam. These materials will never biodegrade.

Soft Fabric Dryer Sheets are biodegradable and recyclable.

Shaklee Difference

Dryer Sheets

Directions for best results

Add an unfolded fabric softener sheet at the beginning of each drying cycle. For large loads, use two sheets. Remove and toss dryer sheets into your recycling bin.

For even better results Separate sheet along perforated lines and place both halves in the dryer for effectiveness and reducing chances of blocking dryer vents. Use a low heat setting for synthetics. If a dryer sheet leaves a spot, don't worry: Brush the fabric with soap and water and rewash.
