***“I believe education is the answer ... that’s why my team and I will spend the next four months in the Arctic, documenting climate change and the challenges facing the 5,000-year-old Inuit civilization. Students of all ages can track our progress, LIVE, at [GlobalWarming101.com](http://GlobalWarming101.com). I hope you’ll log on and enjoy this truly unique educational experience. Seeing is believing.”***

– ***Will Steger***, *National Geographic Award-winning Arctic Explorer*

Dear

Teachers have the unique and rewarding responsibility to open a young mind and affect a child’s perspective for life.

As a teacher, I understand how rare it is to uncover educational opportunities that are both fascinating in the classroom and make lasting impressions.

This is such an opportunity. It concerns global warming, which is now being discussed at the highest levels of governments, in boardrooms, and in classrooms around the globe. This discussion is expected to last for decades.

I would like to personally invite you and your students to follow renowned polar explorer Will Steger on his upcoming expedition, [GlobalWarming101.com](http://GlobalWarming101.com). Called “The Jacques Cousteau of the Poles,” Will has chronicled the impact of climate change on the world’s polar regions for 20 years. In fact, three of Will’s polar expeditions were cited in *The Greatest Adventures of All Time*, published by Time-Life books.

Will considers [GlobalWarming101.com](http://GlobalWarming101.com) to be his most important expedition. It begins on Feb. 14 in Iqaluit on Baffin Island in the Canadian Arctic, and spans 1,200 miles through five Inuit communities – some of the world’s most isolated and remote villages. These local people, indigenous to the Arctic coasts, are significantly impacted by climate change.

Will is committed to sharing expedition findings, and *National Geographic* has agreed to help. The organization approved lesson plans on global warming for grades K-12, and these are available at no charge on the expedition Web site. To complement the lessons, Will and the expedition team will provide firsthand, *real time* daily audio and video updates on the trek, which can be streamed into your classroom via the Internet.

I’ll be calling in the next few days to set up a time for us to discuss this unique educational experience. When we meet, I’ll bring along a packet of information that includes a poster-size map of the expedition route on Baffin Island for classroom use.

The map is being provided as a public service by Shaklee Corporation, a proud sponsor of Will Steger polar expeditions for more than 20 years. Of course, there will be no charge to you.

I look forward to meeting with you soon,

Best,
