# HOW TO USE BASIC-H®

The Top-to-Bottom Cleaner that Goes Gently Down the Drain

**BASIC-H**<sup>®</sup> is a highly concentrated organic cleaner that can handle all your cleaning tasks — from washing delicate fabrics to cleaning grimey floors. Plus Basic-H is environmentally safe: Its biodegradable and free of phosphates, chlorine, borates, and nitrates. And it's gentle on your hands.

Dilute concentrated Basic-H as directed to save money and get everything sparkling clean. One quart makes up to 190 gallons of powerful cleaning solution.

**A thousand uses!** Versatile Basic-H is safe and effective at the recommended dilutions on all types of materials and surfaces. Use the Shaklee All-Purpose 16-ounce Spray Unit or the Shaklee 4-ounce Squeeze Bottle.

**GENERAL CLEANING**

Use 1/2 teaspoon in a 16-ounce sprayer or pint of water to clean walls, counters, woodwork, sinks, etc.

**WINDOWS AND MIRRORS**

For windows, mirrors, and other glass surfaces, use 2 drops to 16 ounces of water. Do not use too much Basic-H or glass will streak.

**KITCHEN APPLIANCES**

Use 1/2 teaspoon of Basic-H to 16 ounces of water. Gets greasy stovetops and other appliances sparkling clean — without streaking.

**POTS AND PANS**

Mix 3 teaspoons per gallon of water to soak casserole dishes or soiled pots and pans for easier cleaning. Rinse thoroughly after soaking.

**DUSTING**

Use “Windows and Mirrors” solution (2 drops in a 16-ounce spray bottle). Spray on a soft cloth, **not directly onto furniture**. Dust and grime disappear from furniture, leaving a shining finish.

**FLOORS**

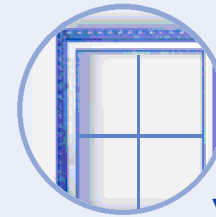

Use 2 tablespoons to a gallon of water. Wring mop dry and wipe up spots and dirt. This concentration will not remove wax.

**FINE FABRICS**

Use 1 teaspoon to a basin of lukewarm water to wash woolens, nylon stockings, and all fine fabrics. Always test a small, inconspicuous area before using.

**GUM**

Use a small amount of full-strength Basic-H to remove gum from clothing, carpeting, etc. Allow it to soak for a few minutes; then remove gum and wash the material according to label instructions.

**OUTSIDE WINDOWS AND SCREENS**

Use 1/4 teaspoon per gallon of water in a hose-end sprayer. You'll see amazing results!

**WINDSHIELD WASHING FLUID**

Add 8 drops to each quart of windshield washing fluid in reservoir. This solution will remove road oil and salt film.

**AUTOMOBILES**

Use 2 teaspoons per gallon of water. Wash a small area at a time, hose off, and wipe dry. Basic-H easily removes bugs, road grime, and tree pitch. Leaves no streaks or spots.

**CAMPING**

Apply Basic-H full strength to the outside bottom of your pans for easier cleaning after your cookout. Rinse thoroughly. Basic-H is effective in both hot and cold water.
