# NutriFeron®

Breakthrough immune protection\* — patented, exclusive formula

## THE CHALLENGE

Every day our bodies are under attack by pathogens and dangerous microbes that infest our surroundings with an unseen, unfelt, yet undeniable health threat. Our body's built-in immune system protects us whenever possible, but it's under constant attack from poor nutrition, stress, pollution, and fatigue.

## NUTRIFERON

NutriFeron is a powerful breakthrough in immune system science. It is a patented, clinically proven blend of immune-strengthening plant extracts. For daily use, it increases the production of your body's natural interferon, a critical activator of the immune system. NutriFeron works at the cellular level in two ways:\*

- Rapidly activates your immune system's defenses\*
- Mobilizes the immune system's "search-and-destroy" teams\*

## THE SHAKLEE DIFFERENCE

- NutriFeron is the only immunity supplement formulated by the discoverer of natural interferon, after an exhaustive review of 200 natural compounds.
- Patented, clinically proven formula
- A natural way to keep your immune system finely tuned and on ready alert, taking the defenses you already have and making them even better.\*
- Available exclusively through Shaklee, NutriFeron is a powerfully effective supplement that has exceeded a stringent set of scientific tests for safety, purity, potency, and clinical tests for performance.
- Star-K kosher certified

## WHO WILL BENEFIT FROM NUTRIFERON?

- Everyone over twelve years of age whose busy, stressful lifestyles place their immune systems under constant attack
- Those who want to be proactive in optimizing their immune response against environmental irritants and airborne pollutants

## HOW SHOULD IT BE USED?

The recommended serving of NutriFeron is two caplets daily. If pregnant or nursing, please ask a health care professional.

## SCIENTIFIC EVIDENCE IN SUPPORT OF THE INGREDIENTS IN NUTRIFERON

- Preliminary laboratory studies suggest that in as little as three days, NutriFeron can unleash the full potential of the immune system.
