ProSanté Lightweight Conditioner & Replenishing Conditioner

Repairing and rebuilding hair naturally

Lightweight Conditioner and Replenishing Conditioner work together providing either light or intense repair and moisture according to the schedule that best meets your hair's particular conditioning needs.

Exclusive blend of botanicals and a naturally derived protein rapidly restore shine, body, softness and manageability while providing essential protection against future damage, so your hair becomes increasingly healthy looking with continued use.

CHALLENGE:

The key to manageable hair that looks shiny and feels thick and bouncy is maintaining the smooth, flexible, and resilient surface of the hair shaft. However, chemical processing, blow-drying and heat-styling, rough handling, and exposure to UV and pollutants can leave hair scuffed, porous, stretched and split. The result is hair that's limp and flat, dry and frizzy, dull and colorless, or brittle and prone to breakage.

ProSanté LIGHTWEIGHT CONDITIONER & REPLENISHING CONDITIONER:

Two conditioners that work as a team to provide a personalized conditioning regimen for every hair type.

- **Balances oil and moisture.** Lightweight Conditioner smoothes and moisturizes hair without weighing it down. Replenishing Conditioner permeates hair with concentrated moisture where hair needs it most, restoring intense shine and silky softness, and boosting bounce and volume.
- **Restores structural elements.** Naturally derived protein and humectants repair surface damage and mend split ends for renewed elasticity and increased strength for break-resistance.
- **Makes combing & brushing effortless,** wet or dry. Restores oil and moisture balance, eliminates static and boosts body for easy handling and styling.
- **No harsh chemicals.** Both formulas are stress-free for thin or thinning hair.
- **Features Scalp Health Complex,** a unique combination of 10 vitamins, minerals and herbs that nourishes and revitalizes scalp and hair.

WHO WILL BENEFIT FROM LIGHTWEIGHT CONDITIONER & REPLENISHING CONDITIONER?
